

5th & 6th Grade

ART Homework

Requirements For All:

2 New Artworks (to be used for May Boards)

Create 2 new 2D works from observation in drawing of a still life, animals, landscape, cityscape or nature study. These should showcase your technical skill and your observational drawing skill. You have a lot of room for choice in these works, so CHOOSE wisely and spend time working on them. And have fun! This is art and art is fun!

THINGS TO CONSIDER:

quality of paper / material use (your choice, but choose wisely) / showcasing your technical skill / taking your time / putting TIME into the work (think about how much time we put into school projects!) / boards-quality

These works will count as home/independent works for your Boards portfolio.

ALL WORKS DUE: the day we return to school
