

BAC LONG TERM ASSIGNMENT

1. Here is an **article on Office Safety**. Please read it over.
 - Make the following list –
 - When you are out shopping or wherever, what violations of these safety rules do you see?
 - If your home were an office, are there any violations of these safety rules?

When we return, be prepared to share these lists. We will discuss more on safety and Federal laws about workplace safety when we return.

2. Office safety also involves personal safety. **Read the article/map** about reporting harassment. Be ready to discuss this when we return.

3. Listen to and/or read **news reports regarding this Corona virus**. The Federal, State and Local governments have put practices in to place for our safety. How do you see those being explained to the public? Where do you see the public or businesses voluntarily putting safety practices in to place? Where do you see people or businesses violating the requested safety practices? Keep a list. **Email this to me by Friday, March 20.**

3. We will also be studying **Copyright law**. During these weeks, look for copyright notifications and keep a list of the ones you find. Where is this information on books? Recorded music? Printed music? Can you find copyright information on magazines? Photos? Bring examples.

If you have questions, email me at kleesag@cpsboe.k12.oh.us

Stay healthy! See you in April!
